ERMAK+

ERMAK+

The firefighting backpack ERMAK+ serves for fighting of small fires, blazing of forest undergrowth and as equipment of patrols after fire liquidation or during burning the brushwood following the forest exploitation. It is a suitable equipment of fire tankers, off-road vehicles during visual inspections of forest grounds in dry months or as prevention the combine harvesters during harvests.

The firefighting backpack ERMAK+ is designed and manufactured without compromises. In its design we put all our experiences we have gained from the development of our firefighting backpacks Ermak series which is on the market since 2014 and is used by professional firefighters and volunteers in the Czech Republic, many countries in EU and beyond its borders. **The firefighting backpack ERMAK+ is designed in Czech Republic, manufactured in our workshop and by our hands!**
