BUCKET

# BUCKET 15

**BUCKET 15** is **collapsible** water container, which is always at hand during intervention and, thanks to its construction, requires a minimum of space. Its use is very fast - just expand and fill with water.

**BUCKET 15** is made from robust PES fabric coated by PVC in yellow color for **great visibility**. This design and used fabric guarantee **long life, good washability and storability**.

**BUCKET 15** has a volume of **15 liters**. It is equipped with **a large strap** for easy handling. **The reinforced top rim** guarantees a stable shape during filling and handling.

**BUCKET 15** is designed for interventions where you need to transport smaller amount of water or bulk material. It is ideal for forest fires, where you can refill our firefighting backpacks ERMAK with water from a stream or other water source. You can use it as a container for liquids or bulk materials - absorbents.

Height[mm]	270
Diameter[mm]	300
Weight[g]	240
Volume [l]	15
